Subject: TCEQ Contact for Sampling Plan
Date: Monday, January 9, 2017 5:37:18 PM

Phil,

We are still waiting for monitoring numbers to be consistently at 0 for 2 days in a row before initiating sampling. Today we only had two locations at 0.1, the rest were 0 so good news. With the weather warming up, sampling could be as early as Thursday. The OSHA method will take us a little longer to order the media, so need to factor this into the timeframe.

The TCEQ contact is:
Joseph Haney MS
512-563-3935

If you have any questions, feel free to call.

Thanks
Jhana 214-789-9654
